Profile

A Web Developer with up-to-date programming skills and a Data Analytics background. I create responsive and accessible web applications and deliver modern solutions to web designs of varying complexity. I highly value cooperation, commit to team goals, and share new ideas in every project I join.

Recent Projects

HAIKUS HIGHWAY | React, Firebase, API, Sass

A React-based app that offers users to build their own haiku, a three lines short poem originated in Japan. [LIVE](#)

SOCCER STATISTICS APP | React, API, Sass

The Soccer App built with React presents up-to-date standings in soccer leagues using the latest API data. [LIVE](#)

FRIENDLY WEATHER APP | HTML, Sass, CSS, JS, API

A handy app created with Vanilla JS shows current weather conditions for a user in their location. [LIVE](#)

Relevant Experience

Data Analyst | Oct.2018 – Mar.2020

Cognizant Technology Solutions, Toronto

- Reviewed user-generated social media content and categorized it based on complex policy frameworks in order to create patterns for Machine Learning
- Constantly outperformed targets by an average of 20%
- Identified trends and prepared weekly reports for the client
- Contributed to the project development by suggesting policy improvements and ways to fix workflow issues

Awards

- Received two quarterly awards for "Insight Analysis" in 2019 from Cognizant
- Recognized for "New Workflow Evaluation" by Cognizant
